

### Star

A white marking on the forehead, between or above the eyes. Described separately from a stripe/blaze only if significantly wider.

### Stripe

A narrow white stripe down the middle of the face, that stays within the nasal bone.

### Blaze

A wide white stripe down the middle of the face, that reaches the edges of the nasal bone or beyond but stays medial to the eyes.

### Snip

A white marking on the muzzle.

### White Face

White reaches to or beyond one or both eyes.
